

## Camrose College Choir will be Heard Here May 15

Pictured above is the "A Capella Choir" of the Camrose Lutheran College, Camrose, Alberta. This choral group will sing a concert in the Irma School Auditorium Sunday, May 15, at 3 p.m.

This teen-age choir has the enviable reputation of being one

of Western Canada's finest high school choirs. Mr. Edwin Macken, the director, has been on the teaching staff of the Camrose College since 1936, and has had charge of the choir since 1942. Each year he has to train a new group because high school students come and go. Last fall when school opened there were over 70 students out of an enrollment of about 145 who "tried out" for the choir. From that number, Mr. Macken selected the present choir of 55. Through much hard work and persistent practice they have emerged as the fine choral ensemble that you will hear when you attend their concert.

The following are some of the comments made by adjudicators at Musical Festivals where Camrose Lutheran College Choirs have sung—"This is one of the finest youth choirs that I have heard in all Canada."—"This is a remarkably capable choir and is very intelligently directed."—"The way this choir sings is positively astounding."

These were opened in open Council and it was decided that these should be examined by the Consulting Engineers for recommendation to the Council, as to which, in the opinion of the Consulting Engineer would be the most acceptable tender for the Council of the Village to accept.

## Sewer & Water Main Topic at Council Meeting

A meeting of the Council of the Village of Irma was held in the Village office on the 2nd day of May, 1955 at the hour of 7 p.m. for the purpose of receiving tenders in connection with proposed water and sewage project.

Councillors present: W. Symington, C. P. Jones, V. S. Sampson, Mayor Sampson in the chair. Others present: A. C. Charter, Secretary-treasurer, and representatives of the following firms:

Willson and Willson Ltd., Edmonton; Proder Construction Co. Ltd., Edmonton; Poole Construction Co. Ltd., Edmonton; Assiniboia Co. Ltd., Calgary; Ackerman Construction Co., Vermilion. Together with representatives from D. R. Stanley and Associates consulting Engineers, Edmonton.

Tender received, five.

These were opened in open Council and it was decided that these should be examined by the Consulting Engineers for recommendation to the Council, as to which, in the opinion of the Consulting Engineer would be the most acceptable tender for the Council of the Village to accept.

Mayor reported that a suitable contract had been drawn up as between the Village of Irma and Mr. L. E. Caron, Wainwright, and also meeting with the specification of the Consulting Engineer, in all matters pertaining to the drilling of well in connection with the Sewer and Water project.

Contract confirmed by the Council.

It was then decided on motion of C. P. Jones that Council adjourn until Tuesday, the 17th day of May at 8 p.m.

Tuesday, May 17 at 8 p.m.—Councillors present: W. Symington, V. S. Sampson, C. P. Jones, Mayor Sampson presiding.

Minutes of the Special meeting of the Council held on the 18th day of April were read and on the motion of C. P. Jones were adopted as written.

Tender for pipe from Gordon and Belyeg, Vancouver.

Symington—That Secretary return tender along with Deposit cheque and notify them of the successful firm tendering for the Sewer and Water Tender. Installation of Filed. Union of Alberta Mun. re Proposal to transfer power to tax industrial property from the Municipality to the Provincial Government. Filed.

Jones—that the Council accept the requisition of the Wainwright School Division No. 32 for 1955, in the amount of \$9,737.00.

Re Metropolitan Casualty Policy No. FD 3243, Village of Irma, Alberta. (Volunteer Fire Dept.) Injury to Mr. Frank Drevicki. Secretary-treasurer reported that claim of the Council in respect to Mr. Drevicki's injury had been settled by the Company to the satisfaction of the injured party.

Correspondence re Civil Defence together with letters from Lindsay Emery Ford Massie Jamieson and Lambert, Western Water Wells. Filed.

Approval received from Minister of Municipal Affairs re appointment of Messrs. Patriquin, Duncan, McClary, McClary and Co. as Official Auditors for the current year, 1955. Filed.

Mr. F. Clumstad presented police report.

Financial Statement: Mun. account. Net balance, April 30, 1955, \$7413.51. Agri. Trust Account \$419.38. Cemetery Trust \$190.68.

Symington—that Financial Statement be accepted as presented and that the following accounts outstanding be paid: Irma Times 10.90

Patriquin Duncan McClary and Co. 55.65

A. C. Charter 100.00

## CHURCH SERVICES

**ST. GEORGE'S MISSION**  
Service will be held in Metropolitan School on Sunday, May 15 at 4 p.m. Rev. J. Moorhouse will conduct the Service.

## UNITED CHURCH

Sunday, May 15  
Passendale 10:30 a.m.  
Irma Sunday School 10:30 a.m.  
Worship Service 11:30 a.m.  
Seek ye the Lord, while He may be found. Call ye upon Him while He is near.  
Minister H. W. Inglis.

## ST. MARY'S CHURCH NOTES

There will be celebration of Holy Communion in St. Mary's Church on Sunday, May 15 at 2 p.m.  
The May meeting of St. Mary's W.A. will be held at the home of Mrs. R. W. Thurston on Thursday, May 19.  
Kindly bring in your "Thank Offering" Boxes so that the contents can be placed on the Offering Plate at the Deacony meeting. Thank you.

F. Clumstad	100.00

Portage La Prairie Mutual Co.

Pearle Assurance Company

Masie and Renwick Ltd.

Smelter and Co., etc.

## Mr. & Mrs. Reeds Farewelled by Irma Friends

Mr. and Mrs. I. S. Reeds, who have resided at Irma for the past 31 years, left this week to take up residence in Victoria.

During the years they have been with us, both Mr. and Mrs. Reeds played a vital part in our community life.

For 29 years Mr. Reeds was principal of our Irma High school, retiring with honor two years ago. During his teaching life here, he took a keen interest in the welfare of his students and always had a very high average of "passing" among the students who wrote the departmental examinations. He was a steadfast worker in the Christian church and was assistant supt. of the United church Sunday School in 1927. In 1929 he became superintendent proper and held that office working with indefatigable zeal until reasons of health brought about his resignation last year.

Mr. Reeds always took a keen interest in sport of all kinds and was an ardent curler.

Both Mr. and Mrs. Reeds served as elders on the session of the United Church here for many years.

Mrs. Reeds was an active member of the W.A.—the WMS and a faithful teacher in the Sunday School.

On Thursday of last week the W.A. members held a meeting in Mrs. Reeds' honor at the home of Mrs. M. Enger. A program was enjoyed and Mrs. M. T. Knudson on behalf of the W.A. members, then read a letter of presentation which she then gave to Mrs. Reeds with the gift of a lovely necklace and earrings. Mrs. Reeds made a fine reply and recalled many incidents of 31 years ago.

At the Mother's Day service at the Sunday School, Mrs. Prosser recalled Mr. Reeds many years of faithful service and asked him to come forward and accept the gift of a leather bound Hymnary with his name in gold letters on the cover.

Mr. Reeds spoke of the joy found in the service of the Sunday School and said he would remember the Irma Sunday School each Sunday in prayer.

On Friday of last week the WMS members met at the home of Mrs. R. L. Simmerman. The evening was spent in singing many of the favorite old hymns. Mrs. McRoberts, president of the WMS, made the presentation to Mrs. Reeds of a leather bound hymnary similar to the one Mr. Reeds had received.

On Tuesday evening of this week Mr. and Mrs. Reeds were entertained at a supper party at the home of Mr. and Mrs. M. T. Knudson. Here the Rev. H. W. Inglis' on behalf of the

## EASTERLY ECHOES

Mr. and Mrs. Alf Burton and Gwen and her family of Vancouver visited with the Sanders families at Bradner, B.C., on Sunday last. Incidentally this was the occasion of the annual Bradner flower show which is becoming a famous event. The Bradner community hall was a place of delight to Mr. Burton and several thousand other flower lovers, people who make a business of bulbs and those who grow them for a hobby. The community association of which the Sanders families are all members, in co-operation with the bulb owners, this year staged an outstanding show. In spite of many weather difficulties, 200 different varieties of daffodils, narcissus, hyacinths and tulips were displayed in arrangements of beauty. A major display was a swan in white against a background of yellow blossoms with inscriptions in red, white and blue hyacinths, all within a setting of miniature trees and potted plants. Visitors flocked in by car and chartered busses from near and far.

But we will have greenery here abouts soon and lots of flowers too. Just have a look at such gardens as those of Mary Dempsey, Violet Savard, Mrs. Dallow and Mrs. Knowles.

The Battle River W.I. are planning a sale of home cooking in the Co-op store on Saturday, May 21.

Mr. and Mrs. Hugh Elliot are the proud parents of a new son born on Mother's Day, which is also the birthday of their little girl. Mrs. Edith Elliott is keeping house for her son Hugh for a week or two.

We are sorry to hear that Mrs. Frank Crabbe is in the hospital in Wainwright.

## Southern Sayings

Next meeting of the Strawberry Plains W.I. will be held on May 19 at the home of Mrs. E. Tomlinson. Hostesses, Mrs. E. Jackson and Mrs. E. Tomlinson. Roll Call, Your Favorite Month and Why, Raffle, Mrs. Creasey. Topic, Health, by Mrs. E. Jackson and Social Service by Mrs. Funk. Program, Mrs. Bacon.

Last Monday night south of the Trestle Bridge, a bob cat was seen by Floyd Bronson and Norris Tomlinson. Neighbors were called out, but up to time of writing, we have not heard if it has been captured.

community, presented Mr. and Mrs. Reeds with a purse of money.

All Irma and district join in wishing Mr. and Mrs. Reeds many happy years in their new home at Victoria and hope they will make many a return visit to the little town of Irma.

## Funeral For Mrs. R. L. Eaton

The Irma community mourns the loss of one of its long-time residents, Mrs. Ross L. Eaton, who passed away in the Wainwright hospital on the early morning of May 5.

The deceased lady was born Blanche Forester at Chippewa Bay, New York, in 1879. In 1910 she was united in marriage with Ross L. Eaton, and two years later came with her husband to the Irma district where, except for periods spent at Kinross and Holden, she resided until her death.

During her forty years residence in this part of Alberta, she won the respect of all her acquaintances, and endeared herself to a wide circle of friends. In her younger years, she was active in several organizations, but her chief interest was always the welfare of the younger members of the community. To each generation of youngsters, she was "Aunt" Blanche, unfailingly interested and kind. Even during late years of failing health, she exemplified the qualities of tolerance, friendliness and helpfulness which characterized the pioneer people of the continent.

Mrs. Eaton is survived by her husband, and by several nieces and nephews in the East.

The funeral service, held in the Irma United Church on the afternoon of May 7, was conducted by Rev. H. W. Inglis. The choir led in the singing of favorite hymns, "Safe in the Arms of Jesus," and "God is our Refuge and our Strength." The pallbearers, all old friends of Mr. and Mrs. Eaton, were: C. P. Jones, F. M. Hill, W. Clark, J. C. Savard, R. C. McFarland and D. H. Gunn. McLeod and Son of Wainwright were in charge, and interment was in the Irma cemetery.

Beautiful floral tributes were received from:

Ross, George and Edna, Earl, Pauline, Carrie, Louella and Omar; Charles and Ida; Ross and Anna; Ethel and Ross; Marjorie and Bert; Jones family; Donald; Edith, Lily, Sharon, Maureen and Muriel; Duncan and Kay; Doris and Clarence; Iris; Sid Simmonds Sr. and Mrs. Larry Meier; Ernie and Olga; Harold and Lily Morse; Mr. and Mrs. H. A. Barton.

To the Crippled Children's Fund: Mr. and Mrs. F. Drevicki; Mr. and Mrs. W. M. Crabbe; Mr. and Mrs. Frank Crabbe; United Church Memorial fund from Mr. and Mrs. A. C. Milne; Mr. and Mrs. S. M. Brown and Shirley; Mr. and Mrs. Carl Larson; Mr. and Mrs. W. E. Inklin; Mr. and Mrs. F. M. Hill; Mr. and Mrs. Harry Halverson; Mr. and Mrs. S. H. Barber; Mr. and Mrs. H. L. Black; Mr. and Mrs. S. Cudman; Mr. and Mrs. G.

(Continued on Back Page)

## WITH THE District Agriculturist

By J. S. Duncan

### Watch Out For Rats

With the coming of warm weather, rats will be taking to the fields again. We are trying to keep the rats from spreading into Alberta, but if we are to succeed there has to be full co-operation from all concerned. Anyone seeing or suspecting rats on their premises should report at once to their Pest Control Officer or District Agriculturist. Poisons are supplied free of charge for rat control and the Pest Control Officer will give information and advice on use and where necessary in order to get rid of the rats. Everyone in town and country can help by keeping their yards and premises clean and tidy. Garbage piles and junk piles are favorite hiding places. If everyone will co-operate it will be possible to control these pests, so let's all do our part.

### Potato Diseases

Many diseases have shown up in potato patches this year. These diseases can be kept under control by using disease free seed and by planting potatoes on clean ground. Seed potatoes are quite cheap but anyone wanting to grow their own seed can do so if they keep careful watch on their patch and take out any plants which show signs of diseases. This will help to prevent disease spreading to other plants.

### Weed Control

It will not be long now until farmers start to think about weed control. One of the most important things about weed control is to be able to identify weeds where they are growing. If you know what weeds you have you can find out whether they can be killed with chemicals or whether some other method must be used.

### Farm Young People Week

This week at the University is regarded as one of the events of the year by those who attend. This year it is from May 31 to June 8. Young people from 16 to 27 are invited to attend. For full information and application forms drop around to my office.

### RIGHTOI

It takes a rich man to draw a cheque, a pretty girl to draw attention, a horse to draw a buggy, a porous plaster to draw skin, a free lunch to draw a crowd, and an advertisement in this paper to draw trade.

The value of Canada's mineral production in 1953 reached the record high of \$1,341,000,000. Largest gains in the year were in crude petroleum, iron ore and cement.

## GARDEN NOTES—

## Big variety to choose from for solid beds of flowers

For big solid beds of flowers there is quite a variety from which to choose. Some of these new type zinnias make a wonderful show and they come in an enormous range of color and sizes. We can use small types along the front or in smaller beds and anything up to three feet for larger beds and further back. One is advised to get packets of special varieties.

It is best of course to cut or dig in while they are still green and before too many seeds have matured. Often when the first crop of early vegetables have been taken off, the ground is sown to one of these special cover crops which choke out bad weeds and form valuable green manure.

Too much emphasis cannot be laid on taking gardening slowly. Nothing is gained and often considerable is lost by rushing in too much, too soon. In the old days everyone would get the whole garden, both flower and vegetable, planted on the first fine day and then, providing it escaped the last frost, there would be a big display of bloom and a feast of vegetables for a week or so in the summer. And that would be about all.

The aster is another plant that lends itself to clump planting and here too the range in color and size is wide in the new varieties. And of course, there is the petunia, a natural for solid beds and borders. These and others ranging all the way from the inch high alyssum to tall clematis and cosmos are all suitable, either to

plant in solid beds or to arrange together in big clumps.

Finer the better. There is nothing the average gardener likes better than a bed of finely worked soil. Of course, moisture and fertility will be necessary, but it is almost impossible to over-emphasize the importance of having the soil fine. Especially in this so when seeds to be sown in tiny like that of lettuce, carrots, alyssum or portulaca.

If the seed bed is coarse, and lumpy, it will be impossible to keep out air and either the seeds will not germinate at all or they are liable to produce only weak plants. It will pay well to run rake or cultivator through a few extra times.

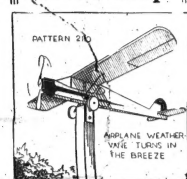

In fairly large gardens here is a useful trick for building up the soil. A bit of the land should be set aside and sown to clover, oats, buckwheat, or almost anything that will grow quickly. In a pinch we sow nothing at all but simply let the weeds germinate and grow a foot or so high, then they are cut with a scythe or power mower and allowed to form a mulch and rot.

Better still, we can have them plowed under or dug in where they will make a compost of their own and help loosen the soil. In addition to adding humus, they will also be of considerable value as fertilizer.

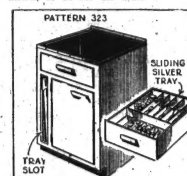

## Change with temperature

An interesting development of the metallurgist has been the creation of alloys whose magnetic properties change with variations in temperature. These alloys, which contain copper and a high percentage of nickel, are weakly magnetic at ordinary temperatures, but gradually lose their magnetism as the temperature is raised. They are used to compensate for the effects of temperature in such instruments as the automobile speedometer and the watt-hour meter, thus contributing to the accuracy of these devices. Where it is not for these alloys, a speedometer on an automobile travelling 60 miles per hour, reading correctly on a winter day, would only read about 42 miles per hour on the hot desert.

## Home Workshop

This graceful, plane measure two feet between wing tips. It is finished in white enamel with red and black trim. The propeller picks up in the slightest breeze wind. It may be mounted on, as the whole plane turns into the separate standard; the garage ridgepole or in any exposed area. The pattern gives actual size cutting guides for individual parts with directions for assembling and mounting. The price of pattern 210 is 35c. Copy will be mailed the day your order is received. For first class mail delivery enclose 2c extra, or 5c for air mail.

If you have kitchen floor space vacant that is two feet square it is doubtful if you can find a more useful way to use it than for this cabinet. The recommended height is 36-inches but this may vary in order for the cabinet to be level with stove, sink, table or whatever is on either side. Note the tray slot and the double-deck drawer with sliding tray for silver. Use the lower part for table mats and napkins. This piece was designed for the weekend cabinet maker with only hand saw, hammer and screwdriver. This pattern 323 may be ordered for 35c or it will be included in the packet of five standard size patterns for kitchen remodeling for only \$1.50 postpaid.

Address order to: Department P.F.L., Home Workshop Pattern Service, 4423 West Fifth Avenue, Vancouver, B.C.

PEGGY

## APPETIZING RECIPES

**FRALINE CAKE**  
 1/4 cup shortening  
 1/4 cup granulated sugar  
 1 egg  
 1 1/2 cups sifted cake flour  
 1/4 teaspoon salt  
 1/2 teaspoon baking powder  
 2/3 cup milk  
 1/4 cup brown sugar  
 1/4 teaspoon vanilla  
 1 cup brown sugar  
 2 teaspoons flour  
 1 tablespoon water  
 1 tablespoon melted butter  
 1/2 cup chopped pecan meats

Cream shortening; add granulated sugar gradually, creaming until fluffy. Beat in egg thoroughly.

Sift together 1 1/2 cups flour, the salt and baking powder; add to

shortening mixture alternately with milk, beating until smooth after each addition. Stir in vanilla. Pour into well-greased glass cake dish.

Bake in moderate oven, 325 degrees F., for about 40 minutes or until done. Cool slightly.

Mix together brown sugar, two teaspoons flour, the water, melted butter and chopped nut meats; carefully spread on top of slightly cooled cake.

Return to moderate oven, 325 degrees F., and bake for 10 minutes.

This delicious cake is a time saver, for, when it is removed from the oven with its nutty topping, it can go right to the table. Yields 8 to 10 servings.

## Farmers in rust area being urged seed largest possible acreage Selkirk

REGINA.—R. E. McKenzie, director of the provincial plant industry branch of the department of Agriculture said recently that farmers in the rust area of Saskatchewan should make every effort to seed the largest possible acreage of Selkirk wheat this spring as insurance against rust damage. The director said that at this early date it was impossible to predict whether rust would be a problem in 1955, but that initial reports from the southern United States indicated a larger than normal overwintering of rust spores.

"Should these spores move over operating costs will be passed on to buyers by the Seed Grain Co-operative and refunded at the end of the season."

Embargo helps. Dominion gov't had imposed an export embargo on Selkirk wheat seed principally to give Saskatchewan farmers an opportunity to get supplies without paying the extremely high prices that would have prevailed if exports had been banned.

"Every effort should be made to get all of this seed into the ground in the rust area," said Mr. McKenzie, "The rust is particularly urgent on the heavier lands of the Regina plains where it is now evident that seedling will not commence very early and could be

Official of the Agricultural department have said that the area south of a line between Yorkton and Colonsay and east of the 3rd Meridian is the most likely area for a rust epidemic during 1955 if the weather is favorable for the growth of the spores.

The movement of carload quantities to points needing Selkirk is the best way of obtaining supplies said Mr. McKenzie, adding that home municipal agricultural committees, Ag. Reps., and elevator agents will be glad to help organize where it seems possible that a carload could be imported.

## Third invitation visit Sask. Jubilee Year

REGINA.—The third invitation to visit Saskatchewan in Jubilee Year is now being mailed to some 20,000 former residents of the province. Accompanying each letter is a calendar of Jubilee celebrations being staged in over 300 communities, most of them in June, July and August.

The invitation is a personal message from Mr. Arthur C. McArthur, chairman of the Saskatchewan Golden Jubilee Committee, outlining the Jubilee program and welcoming visitors.

According to Fred McGuinness, Jubilee executive-director, the personal invitation is designed to attract the attention of each person receiving it and is expected to bring thousands back to their old homes in their vacation period.

Cities, towns and villages are making special "home-coming" plans, including decorations and a reception centre. In addition to the general invitation from the Jubilee Committee, local communities are sending out their own letters of welcome, asking those who receive them to tell others of Saskatchewan's Jubilee.

## Rains dampen hope for early seeding in Manitoba

"Rains of one-half to one-inch that fell in many parts of Manitoba during the past week checked the hope that spring operations would get off to a very early start this year," states H. E. Wood, Manitoba department of Agriculture.

Before the rains a start had been made on seeding in a number of widely scattered points where the soil is well drained, Mr. Wood reported, Waskada, Deloraine, Killarney, Somerset and Morden were among the areas reporting early seeding.

"Now seeding is not likely to be general before the beginning of May," Mr. Wood stated, "as excess surface moisture is a problem on all the heavier low-lying soils and particularly in the Red River Valley."

The planting pattern is expected to follow the same general pattern as in previous years with probably some increase in wheat acreage. This would bring the total wheat acreage in the province to nearly 2 1/2 million acres.

It is expected that the acreage of sunflowers, corn, field peas and canning crops will be increased.

Prospects for early pasture and for an ample hay crop are very promising, Mr. Wood said.

## Bacterial ring rot of potatoes

Bacterial ring rot, a bacterial disease of the potato plant and tuber, is extremely infectious and can be spread from a single diseased tuber to many healthy ones during seed cutting and planting operations.

In spite of the infectious nature of the disease it can be successfully controlled.

J. K. Richardson of the St. Catharines Plant Pathology Laboratory, federal department of Agriculture, said that the disposal of all potatoes including table stock if the disease is found on the farm. All storages, containers, and farm equipment used in handling the potato crop, should be purchased and used for potatoes.

The disease in the field can be recognized by a progressive wilting, yellowing, rolling and eventual drying of the leaves on one or more plant stems from the base upwards. Some tubers from such plants may be completely rotted or show typical cracking of the skin. Others when cut may have cream colored decayed areas.

Under certain conditions other tubers just below the skin may be only slightly infected often show no external symptoms and may overwinter as apparently normal healthy potatoes. These apparently healthy tubers give rise to infected plants.

## OUR COMPLETE SHORT STORY—

## THE PATTERN

By ANNA E. WILSON

WIMPY stood looking at the great crane swinging along its narrow gauge track with its husky Ole Peters riding it with a load of freight. Wimpy shivered, then jumped as the voice of the President barked out.

"Where are those stock reports, Wimpy? It does seem as if you could find some work to do around here instead of standing staring at the roof."

The stock reports, in their wire basket, were right now resting on the President's desk, placed there by Zack, the red-haired office boy. Zack had no fear whatever of the President, who tolerated his lack of respect for any kind of authority with restrained patience; but sometimes it seemed as if the President could hardly see Wimpy's small, under-sized figure and mildly frightened face without barking at him. The President was a big man and slender, while Wimpy stood a bare five feet two and weighed little over a hundred pounds.

Wimpy climbed up on his stool and started working at his ledger. He was chief clerk and should have been head bookkeeper long ago for his work was accurate, but when it came to promotions it was easy to overlook Wimpy in favor of more aggressive men.

"The old man's on the ramp this morning, Wimpy," Zack had heard the President's bark and was sympathetic. "Doctor's just reported that Ole's got to come off the crane. Got a little fever and even though he carries heart pills in his pocket, Ole's always stripping to the waist and leaving his clothes in the dump basket."

Wimpy put down a careful figure. "It's too bad about Ole. He loves that crane and hates the job as watchman. Mr. Zimmerman's got mapped out for him. How's your mother getting along now, Zack?"

"Mother's not working much anymore. Things are pretty tight right now, but the Old Man's promised me the first opening round here with money pay. Maybe as a clerk. What's that you got there, Wimpy, your lunch?"

Wimpy nodded. "Saturday afternoon, you know. I'm going to eat it in the Park."

Zack whistled cheerfully. "Bet the pigskins get most of it. Wimpy, it's a shame, keeping you here all these years when you should be on the books." He jumped as the President's bark came out at them.

"Wimpy, where's the time sheet?"

Zack grabbed the time sheet and fled. At the President's door, he cocked his head on his fifteen-year-old neck and walked in boldly.

## More Comfort Wearing FALSE TEETH

Now in place of the old-fashioned plate glass teeth, PATENTITE, an improved material, is used. It is lighter, more comfortable, and does not break. It is also more durable and does not require the use of any special cement. It is also more comfortable and does not require the use of any special cement. It is also more comfortable and does not require the use of any special cement.

## Helps You Overcome Itching of Piles Or Money Back

You do not have to be tormented and embarrassed by the itching, burning and burning pain of piles any longer. Here is a real help for you.

Get a package of Hem-Bal as an internal pile treatment. It is a new drug, store and use as directed. It is a new drug, store and use as directed. It is a new drug, store and use as directed.

**"EXPORT"**  
CANADA'S FINEST  
CIGARETTE

Wimpy wished he could be more like Zack. To be sure the President barked at Zack too, but he was very apt to give him a stray quarter or a bottle of coke, just as he was apt to give, on occasions, a cigar to Ole, the big crane-man; but Wimpy was so insignificant that in the rewards for merit he was completely overlooked.

Wimpy put his desk tidy and picked up his lunch. He put his hat on carefully, and calling good-bye to Zack, went out on the street. He boarded a bus timely, pushing in among the passengers, and got out at the Park. He passed through the Park and entered in at the big iron gates of the Zoo. The gatekeeper smiled as he took his ticket. "He's waiting for you, eating his heart out," he joked mildly, as Wimpy made his way to the cage of Milo, the big African lion.

Wimpy was a little man, shy, and timid. Someone had told him once that he was very apt to take on the qualities of the things that he admired and Wimpy had a pathetic admiration for the big lion. He shivered deliciously when he roared, and when Milo lay like an immobile statue just thinking, Wimpy came timidly closer to the bars.

Ending each Saturday afternoon with the lion made Wimpy's life tolerable. Watching Milo, he could imagine himself walking in the lion's skin and waiting for the job of chief bookkeeper. He imitated the dignified walk of the great beast, one foot ahead of the other, silent and sure, or he just sat quietly on the iron bench and studied him. Sitting thus, Wimpy's heart swelled and he dreamed happily of doing some fine deed that would bring him into the limelight at the office. He could imagine the President bowing or maybe shaking him by the hand.

But Monday morning found Wimpy back at his desk, as neat and methodical as ever. There wasn't much opportunity for toying during deeds at Zimmerman's, and if there was, it didn't come in the way time for little clerks, no matter how willing.

"Wimpy," the President's mood was worse than usual by the sound of his bark. "Get out and tell Ole I want him."

Wimpy went out into the body of the President and looked towards the great crane just as he heard a startled shout from the crane-man. The big crane lurched, came to a dead stop in the middle of the track and Ole could be seen falling over against the side of his basket.

"Holy cow," the foreman's voice was hoarse, "Ole's having a heart attack."

In less than a minute, the whole place was in a hubbub with the President yelling for someone to do something, but it seemed as if there was nothing to be done. Ole's condition was dangerous. The only way to get help to him was along the narrow track, only a few inches wide, high above the main floor. Men looked at the dizzy height, at the track like a thin ribbon, and shook their heads—all but Wimpy.

Nobody noticed the little clerk quietly get the pills from Ole's pocket and start to climb, and Wimpy climbed steadily. His stomach was sick and his head dizzy but he reached the track and started to walk out to Ole. Half way across the track he glanced down and panic seized him. He started slipping sideways while his mind went blank for a split second and then, suddenly, he was no longer Wimpy, he was Milo; stepping safe and sure, he felt a mild sort of exhilaration. He climbed down into the basket, gave Ole his heart pills and started the machinery. Eager hands seized Ole and carried him off to the hospital while Wimpy, for the moment forgotten, climbed back on his high stool and buried his face, white and shaken, in the ledger.

Ever the President was early on Tuesday. Wimpy could hear him barking right through the office door, as Zack scurried in with the stock reports. "Who's responsible for the promotions round this office anyway? Why hasn't a man like Wimpy been made head bookkeeper long ago? Zack," he roared, at the boy's retreating back. "Get out there and go to work with Wimpy!"

"Goah, Wimpy," Zack's voice was awed. "Everybody thinks it's wonderful, what you did for Ole."

"Wimpy," said Wimpy with dignity.

## Do You Know That...

Breeding of sheep with different colored fleeces is an art in Kashmir.

## Plant cuttings must root to survive

John Walker, Forest Nursery Station, Indian Head, Sask., states that cuttings, which are portions of stems separated from parent plants, can survive and grow only if roots first develop on them and secure water and plant food from the soil or medium in which they may be planted. Therefore, the more favorable conditions are for the development of roots, the higher will be the survival and the greater the development of roots and new growth.

In the propagation of plants from unrooted hardwood cuttings, whether secured in the fall or in early spring, the less they have been exposed to drying or varying conditions the better will be the results after being planted.

For best results with poplar or willow cuttings received from Forest Nursery Stations in Spring, the planter should select a place for them in the garden where the soil is friable, and reasonably damp and where additional care and moisture can be given to them throughout the growing season. By following this plan a higher percent of rooting and greater top growth are likely to occur, than if the unrooted cuttings are planted where they are to be finally located.

Early in spring of the following year the rooted plants should be planted in the permanent location and at the spacing desired. In planting the rooted cuttings should be handled in the manner recommended for young trees. Top growth may be pruned to a reasonable degree prior to planting.

In addition to poplar and willow cuttings, cuttings of currant, grape, tamarix and other plants that can normally be increased by hardwood cuttings should be treated in the same way.

## Pays to be a swimmer

Any non-swimmer who has ever found himself beyond his depth in water knows the feeling of panic that can ensue. Many people have drowned and dragged others under with them, because of this.

A knowledge of how to swim and float is a lifesaver—even an indifferent swimmer can take care of himself in deep water if he knows how to keep afloat. There is still time to learn to swim before vacation days come around and most towns and cities have some facilities for swimming lessons.

It pays to be a swimmer, not only for safety's sake but also for the benefits of this healthy exercise.

60 Front Street W., Toronto.

## Timber wolf setting at new museum depicts marauders on trail of moose

REGINA.—The timber wolf, common in forested parts of Saskatchewan, will be the subject of an interesting display at the new provincial museum of natural history in Regina, which is scheduled to open officially later this spring.

This display case depicts a crisp moonlit winter night in typical wolf range country of Saskatchewan. In the foreground, standing lifelike among spruce trees and willows are two adult timber wolves. A little further back toward the forested hills and meadows are two more wolves making up the horizon. Two more wolves are approaching.

The setting for the scene is taken from east-central Saskatchewan, not far from the Manitoba border and looking north from the portage between Hell Diver lake and Shallow lake in the Pasquia provincial forest. Seven miles to the north of the area which has been reproduced is the Carrot River flowing eastward toward The Pas in Manitoba. To the west, or left side of the case rises the escarpment of the Pasquia Hills.

The portage trail can be seen clearly marked by a tall spruce tree which has the limbs partly cut away near the top. This serves as a marker plainly visible from the far side of the lake and helps guide the canoe traveler in summer or the dog team musher in winter.

A moose, as can be seen by the tracks, has followed the trail and fed briefly on the willows at the right of the case.

Meanwhile a pack of wolves, consisting usually of a pair and their young from the previous spring, have left their resting place among the gullies near the timbered hills for their hunting grounds. They have struck the

trail of the moose and are evidently intent upon making an attempt on its life.

Anyone viewing the display might readily imagine hearing the hunting cry of the pack starting on a medium note, rising momentarily to a high note and then gradually descending in a blood-chilling quivering wail.

This cry of the wolf has terrorized many a person while out alone on the trail, but in spite of stories abroad which say the animals are dangerous to humans,

authorities report there is not one case on record of a timber wolf attacking a person.

**ROYAL LETTER**  
EDMONTON.—Dorcas Cartwright, 13, came home from school to find a letter from the Queen, thanking her for a sketch of Her Majesty. Dorcas had sent the sketch to a pen pal in England, who forwarded it to Buckingham Palace.

A date palm may bear fruit for about 200 years.

## Date-Orange Pudding

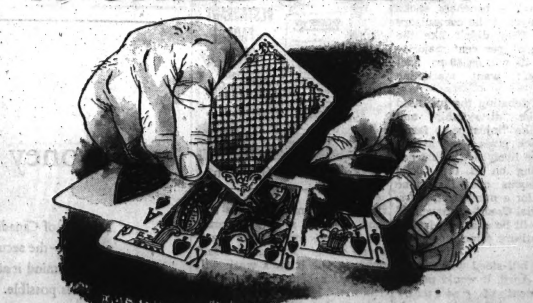

Combine in a greased casserole (6-cup size)  $\frac{1}{4}$  c. corn syrup, 1 tb. grated lemon rind and  $\frac{1}{2}$  c. orange juice. Preheat oven to 375° (moderately hot). Mix and sift once, then sift into a bowl,  $\frac{1}{2}$  c. once-sifted all-purpose flour (or  $\frac{1}{4}$  c. once-sifted all-purpose flour),  $2\frac{1}{2}$  tps. Magic Baking Powder,  $\frac{1}{2}$  tsp. salt and  $\frac{1}{4}$  c. fine granulated sugar. Mix in  $\frac{3}{4}$  c. corn flakes, slightly crushed, and  $\frac{1}{4}$  c. cut-up pitted dates. Combine 1 well-beaten egg,  $\frac{1}{2}$  c. milk,  $\frac{1}{2}$  tsp. vanilla and 3 tb. shortening, melted. Make a well in dry ingredients and add liquids; mix lightly.

Turn into prepared dish. Bake in preheated oven, about 40 minutes. Serve warm, with pouring cream. Yield—6 servings.

Always Dependable

## Would You Take a Gambler's Chance on A CHILD'S LIFE?\*

\*Some people do!

In 1954

83 Saskatchewan children were killed in accidents.

3,925 Saskatchewan children were treated in hospitals for injuries sustained in accidents.

Children were burned, crushed, scalded, poisoned, drowned and suffocated, because:

SOME PEOPLE TOOK CHANCES!

Accidents today are the chief cause of death among children up to the age of 15. Thousands of other children of our province suffer painful and often mutilating and crippling injuries due to preventable accidents. ## News Roundup From Edmonton

By Ken Mason  
(Special to The News)

EDMONTON—Members of the Alberta Legislature returned to Edmonton this week for the second sitting of the 1955 legislative session—a sitting which may turn out to be the most important of the year.

When the session adjourned in April for the Easter recess, the legislature still had not disposed of some of the major bills presented to the house by Premier Manning's government.

In addition to that, there is the question of natural gas export to eastern Canada, in the light of the failure of Trans-Canada Pipe Line Ltd. to obtain financial backing for its proposed \$300,000,000 project. The premier gave this as the main reason for calling members back to a special session.

But one of the main items of unfinished business, and certainly the most contentious so far, is the bill which would permit establishment of producer-controlled marketing boards, to market certain agricultural products, and set prices.

The marketing legislation became such a political hot potato that the government decided to give it to a meeting of the house agriculture committee, which consists of all 61 members of the legislature.

At last reports, the Alberta Federation of Agriculture and the Western Stock Growers' Association had signified their intention to submit briefs to the committee. It was believed both groups would be opposed to the bill as it was presented to the house—but for different reasons.

The AFA was expected to ask for fewer restrictions on the establishment of marketing boards while the stockmen already have expressed strong opposition against the idea of having cattle and sheep included in the legislation covering the boards. Because of this opposition, cattle and sheep were excluded from the bill introduced by L. C. Halmrast, minister of agriculture.

The AFA was expected to oppose the provision in the bill that a marketing board for a specific product could levy a fee of only 51 per cent of the registered producers vote in favor of it. The group believes this restriction will make it too difficult to set up a board, and was expected to ask for an amendment making it a majority of those who actually get out and vote.

Usually solid Social Credit ranks are split on the marketing board question, and for still another reason. Several Social Credit back-benchers spoke strongly against the compulsory features. They didn't like the idea of a 51 per cent majority imposing its will on 49 per cent who don't want marketing boards.

MLA's debating the bill used words like "dictatorship" and phrases like "injustice to farmers," which gives some indication of the lively battle that has been going on in the Social Credit caucus over the same question for a number of years. Some Social Credit-ers have said the bill will be abandoned after the agriculture committee hearing.

As the bill stood when introduced in April, it would permit establishment of producer boards to market poultry, poultry products, hogs, vegetables, honey, cheese, commercial grass and legume seed.

Another bill concerning agriculture has yet to receive third reading, and it has been described as one of the most important of the 1955 session. It is an act to provide for conservation and more efficient use of natural resources, especially agricultural land.

Mr. Halmrast introduced the bill toward the end of the sitting in April, and announced that it will involve setting up a board of experts to survey various types of land in the province and determine the best use for them.

Earlier, the agriculture minister said many farmers are using their land for the wrong purpose—such as trying to grow wheat when the characteristics of the land are better suited to raising sheep.

The new program is designed

## Kinsella News

Mr. and Mrs. P. Mollier attended the wedding of Miss Dorothy Faulkner of Rodino and Mr. Stanley White of Ranfurly. The happy couple will make their home in Ranfurly.

Greggie Loades spent a couple of days in the Viking hospital last week.

The work crew have moved in and are preparing to start work on the overhead pass at the crossing west of town.

The school children at Kinsella school are busy practicing for the track meet on Friday, May 20.

Mr. and Mrs. B. Davis and Richard were visiting Mr. Davis' parents, Mr. and Mrs. R. Davis, of Bruce on Sunday.

Messrs. John Ganev and M. Bilu were visitors to the city last week and on their return we notice John is sporting a new Plymouth car.

Mrs. Ian Daniels is a patient in the Viking hospital.

Mr. Edward Overbo has also been in the Viking hospital receiving treatment, but was hoping to return home on Monday.

Mrs. R. Ringland of Salmon Arm, B.C., was a recent visitor at the home of her mother, Mrs. T. Oakes.

Miss Mary Bilu who is a nurse at the Royal Alex hospital, Edmonton, was visiting her brother and sister-in-law, Mr. and Mrs. M. Bilu for a few days last week.

Miss Marilyn Paterson took part in the recital given by Mrs. Lefsrud's music class held in Viking on Friday evening.

At the Mother's Day service on Sunday, the Sunday School pupils took part. They sang two appropriate hymns with Faye Olsenberg and Pamela Lancaster singing duet parts, and the "tiny tots" of the Sunday school singing some of the choruses.

The Rev. N. Knight officiated at a Christening service on Sunday when the infant son of Mr. and Mrs. M. Rawluk was given the names, Douglas Michael. Visitors here during the week-end included Miss H. Borthwick and friends of Athabasca, and Miss A. Mulawka and Miss Yvonne Johnston of Edmonton. A number of Kinsella people enjoyed the "Meet the Navy" concert held in Viking on Sunday afternoon.

Donations to the Kinsella United Church Improvement Fund in memory of Mrs. Ross Eaten from Mr. and Mrs. R. Cornack; in memory of Miss Ellen Neale of North Burnaby, B.C. from Mr. and Mrs. E. C. Williams of Vancouver.

VIKING NEWS, Agent

to advise farmers on the best land use, and as Mr. Halmrast put it, "take some of the heart-break out of farming." He said much of the board's work will be done on land opened up for homestead leasing, including the grey wooded soil areas.

Just what the outcome of gas export discussions will be is anyone's guess. Since the session adjourned in April, Premier Manning has been holding talks with pipeline company officials, gas producers and officials of the Ontario Government.

Originally, it was believed he would have a definite program to place before the legislature. Recently, however, he announced that a meeting of interested parties will be held in Ottawa after the reconvened session.

At that meeting, he said, officials will attempt to decide definitely whether export of Alberta gas to the east is economically feasible. If it isn't, he said, "we'll have to look elsewhere."

The government has been concerned over the delay in selling Alberta gas, and considers it harmful to the province's economy to have the gas remaining in the ground with no available market.

In the first eleven months of 1953 Canada's imports were valued at \$4,046,600,000 and exports were valued at \$3,811,600,000. Compared to the same period of 1952 imports were up 10 per cent and exports were down 4 per cent.

BILL  
IRVINE  
Says:

"Farmers who know what has happened to them, why it happened and who made it happen, will know how to vote on June 20th."

"The Liberal party, backed by Social Credit members, abolished price controls, in the interest of profiteers, even before the shortages, due to war, had been made up."

"Here are the results which followed the abandonment of price controls:

Farmers costs increased,  
Taxes rose by ..... 16%  
Machinery rose by ..... 25%  
Building material rose by 31%  
Gas & Oil rose by ..... 10%  
Fertilizer rose by ..... 28%  
Living costs rose by ..... 17%  
Meanwhile farmers income dropped by 50% during the last 12 years. Thus the gap between income and expenditure widened dangerously."

"The very life is being ground out of the farming industry because of the mill stones of shrinking income and rising costs."

"Lower profits for manufacturers will lower farmers costs of production. Higher taxes on profits will help reduce farmer taxation and a fixed forward minimum price for farm products will increase farm income."

"That is the way the CCF will tackle the farmer's problem. We will tackle it from both ends."

The Battle River-Camrose CCF requests your support for Bill Irvine in the by-election on June 20th. His experience in parliament and his outstanding personal ability make him an ideal representative of the people in this constituency.

CCF Radio (CFCW 1230 on your dial) Starts May 16th Every Mon., Wed., & Sat. 6:55 a.m.  
Every Tues. & Fri. 6:55 p.m.  
Every Thurs. .... 10:10 p.m.

## Jarrow News

Mr. E. Young is home again after being a patient in the Viking hospital for a few days.

Mr. and Mrs. Elmer Helm were city visitors last week.

Despite the blustery weather a fair crowd attended the Mother's Day service in Jarrow United Church. The children sang a special song for the service.

Mrs. Percy Robinson of Dapp is visiting with her mother, Mrs. R. Whidden.

Mr. and Mrs. Helm are spending a few days at the home of their son Elmer Helm.

We are glad to welcome Mr.

FOR SALE—good Victory oats, grown from government inspected seed on new land, 90 percent germination; Registered Hereford bull, rising two years old and quiet. Also good heavy Laramie oats. Apply W. R. Askin, Irma. 6-13p

Gay, our student minister, from Oshawa, Ont. His first service will be this Sunday at 11 a.m.

## Glen-Coq Gleanings

Miss Avis Satre was home over the week-end. We were happy to know that Mrs. Satre was able to be home from hospital in time for Mother's Day.

Miss Norma Likness was home for a few days during the week.

Mrs. L. R. Likness of Port Arthur is visiting at the O. Likness home this week.

Mrs. Dan Larson is now on a short visit to Edberg. We wish her a refreshing holiday.

The CLBI program at Sharon on Tuesday evening was well attended in spite of the busy time. Five young women students presented an inspiring program.

## MASSEY-HARRIS MACHINES TRACK-TESTED for DURABILITY FIELD-TESTED for EFFICIENCY

TESTING—TESTING—TESTING—  
Testing is never-ending at Massey-Harris. Track testing goes on day and night, winter and summer at the Massey-Harris-Ferguson Test Track. Tractors and implements are checked with electronic equipment for stress and strain analysis. They are endurance tested for ability to stand up under long usage and are given severe shake-down tests over the bumps to check resistance to breakages.

Steel, paint and other materials are analyzed and tested in the factory laboratory to insure that they meet requirements and specifications—careful check is kept on foundry castings—inspection departments make constant

assembly and run-off tests on production machines.

Field testing is a constant year round activity of the engineering divisions of Massey-Harris-Ferguson. Machines are sent south in the winter time and follow the harvest north until freeze-up to give new models as much work in the field as possible. Machines are tested under many varied conditions for ability to do their work well, for ease of handling, for economy of operation, and for capacity to do a good job. Well designed, well built and thoroughly tested Massey-Harris and Ferguson machines offer outstanding features in modern equipment. Your local dealer will be glad to give you full particulars.

## Money in the bank

Millions of Canadians know the value of a bank account—the security and comfort it brings, the peace of mind it assures, the enterprise it makes possible.

When you keep your money in a chartered bank you know it is safe. And you are dealing with friendly, experienced people, skilled in the management of money and anxious to share their knowledge with you.

There is a type of account to suit your purpose, some designed to help you accumulate funds, others featuring the convenience of chequing.

Your local branch bank provides these and many other services. It is much more than a handy, safe place to keep money. It is a banking service-centre where you can count on prompt and courteous attention to all your banking needs.

Only a chartered bank offers a full range of banking services, including:

### SAVINGS ACCOUNTS

Keep your money safe; pay you steady interest; encourage the habit of thrift.

### CURRENT ACCOUNTS

For individuals and companies who pay by cheque; your cancelled cheques serve as receipts.

### BANKING BY MAIL

Convenient, and saves time. All your routine banking can be handled in this way.

### JOINT ACCOUNTS

Savings or Current; for two or more people; any of whom can make deposits or withdrawals.

THE CHARTERED BANKS SERVING YOUR COMMUNITY

## Echo-Rodino News

Word has been received by Ambrose Beckett of the passing of his aunt, Mrs. A. A. Tyson of Sheffield, England, on April 5. She lived to the grand age of 79 years, although she had been ailing the past year.

The patrons on the latter end of Kinsella mail route have been receiving their mail by pony-express of late. All roads are impassable.

Mrs. Ian Daniel is a patient in Viking hospital. Mrs. Lloyd Whitten and Miss Ellen Nash have both been ill in the Mannville hospital. A speedy recovery ladies!

Mr. and Mrs. White of Ranfurly spent Sunday at the home of Debs Faulkner.

Congratulations to Reggie Vandervaeke for winning second place on Search For Talent held at Mannville.

The MacFarlane barn literally bulged at the seams Wednesday evening when Mr. and Mrs. Stan White gave a wedding

at Mannville. It was a jolly crowd and a joyous occasion.

Mr. T. Paget has been laid up in hospital this week, as well as Mrs. D. Johnston.

Mrs. Bert Cole of Millet, Mr. and Mrs. C. Blundum of Culmar and Harry Lewin of Heath attended the wedding of Miss Dorothy Faulkner.

The Rodino W.A. sponsored a dance in Rodino school Friday night. A lively crowd enjoyed the evening.

## TENDERS

Tenders will be received by the undersigned for a 25 passenger School Bus to operate from the Echo School district to that of Albert beginning September 1st, 1955. Approximate length of return route, 35 miles. Tenders to be considered on Thursday, May 19th at 4:00 p.m. at the School Division Office.

Oliver G. Griffiths,  
Secretary-Treasurer,  
Wainwright School Div. No. 32.

## SEDGEWICK BOY KILLED BY CAR

SEDGEWICK—Robert Rom-bough, 11, son of Mr. and Mrs. A. E. Rom-bough of Sedge-wick, was struck by a car and killed while walking on the Sedge-wick-Viking highway at 6 p.m. Saturday.

The boy, accompanied by three other boys and an adult, identified only as Mr. Clark, was returning from driving some horses to the Clark farm and had just reached the outskirts of town when the mishap occurred.

The driver of the car which struck the boy from behind, was identified as Gordon Ward, a farmer living north of Sedge-wick.

Mr. Ward took the boy to the home of Dr. Cecil Perira who pronounced him dead.

An inquest was scheduled for Monday.

The boy is survived by his parents and two brothers, Leonard, 14, and David, 8.

As a reward for his discovery of Canada John Cabot was granted 10 pounds by King Henry VII.

## PUBLIC NOTICE

A meeting of the ratepayers of the Paschenedale, Battle Heights, Plaxtol, and Avonlea School districts has been called for Thursday, May 19th at 8:30 p.m. at the Paschenedale School for the purpose of electing a local Board to represent the above mentioned districts. Mr. L. G. Hall, School Division Superintendent, and trustees will be present.

Oliver G. Griffiths,  
Secretary-Treasurer,

## TENDERS

Tenders will be received by the undersigned for a 36 passenger School bus to operate from the Sydenham School District to that of Wainwright beginning September 1st, 1955. Length of return route approximately 40 miles, pupil load about 28 to 32 pupils. Tenders will be considered on Thursday, May 19th at 4:00 p.m. at the School Division Office.

Oliver G. Griffiths,  
Secretary-Treasurer,  
Wainwright School Div. No. 32.  
13c

## HOW MANY MINUTES PER GALLON?

Of course, you don't have to make gasoline yourself. But you do have to work at your job to make the money to buy gasoline. And today you don't have to work nearly as long as you did in 1939, or even 1946.

Back in 1939, the average Canadian had to work **33 minutes** to earn enough to buy a gallon of gasoline.

Seven years later, in 1946, the same Canadian had to work **29 minutes** to earn enough to buy a gallon of gasoline.

Today he has to work only **17 minutes**—about half as long as in 1939—to buy a gallon of gasoline.

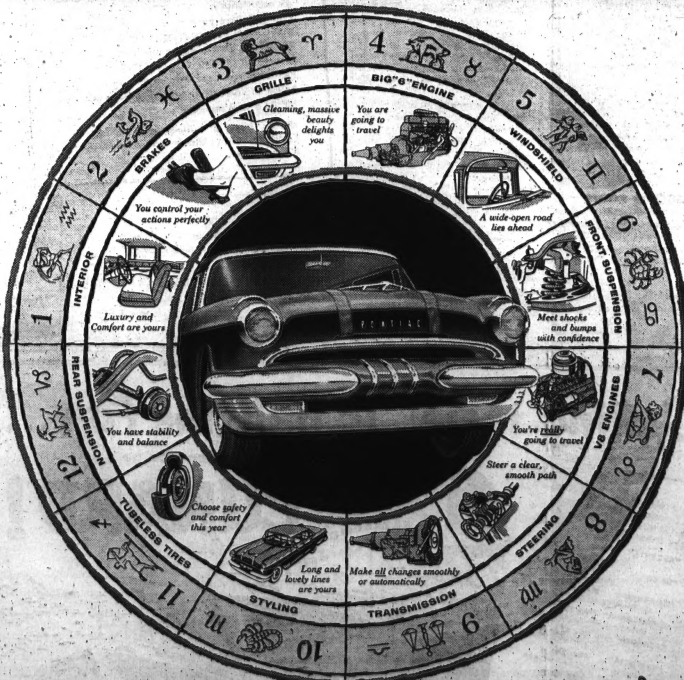

(It's much better gasoline, too. Two gallons of today's gasoline does the work of three gallons made in the 20's.)

## GARDEN NOTES—

## Humus is good substitute for manure--compost heap

One of the very best substitutes for manure is humus, which is simply a fancy name for any vegetable refuse, grass clippings, weeds, straw or even clean garbage, which has been mixed or covered with soil, piled in a corner, watered occasionally and allowed to decompose.

The careful gardener will not waste anything that will rot down. All weeds, either pulled or cut, any grass clippings or leaves, are piled on the compost heap, or if we have not such a thing, they will be dug under right in the garden and immediately. This material will add loose bulk to any soil, making light and more retentive of moisture and loosening up clay and making it easier to cultivate.

## From a little space

It is simply astounding the amount of vegetables that can be produced from a little plot ten to twenty feet each way. And not only is big volume possible but there is another advantage and that is high quality vegetables ready for salad or pot right at the door.

It is usually possible to buy vegetables cheaply in this country during the summer months, but no matter how close the corner fruit store is, it is just impossible to get certain things that compare in freshness with those harvested from our own garden. Take peas or corn, or lettuce or radish, all these vegetables quickly lose their freshness.

In a few hours, and in the city we are lucky to get vegetables less than 24 hours old, they start to dry out and get tough. Their natural sugars turn to starch and despite water and special wrappings they lose crispness. And as for vitamins, it is a well known fact that they are among the most perishable things known to man.

## For a real show

For the average flower garden, whether big or small, planting in clumps is recommended by those with experience. This means, instead of single plants or straight

rows, we set out a group of one variety and possibly color. Where space is limited this will mean only two or three asters, zinnias, marigolds, balm, and so on, in one clump or group, then something else, and so on until the whole bed is planted.

Generally the taller things go at the back, the medium in the centre, and the little edging things like lobelia, alyssum, dwarf zinnias, marigolds and so on, in the front.

But it is well not to be too particular. Here and there we bring some of the taller things forward. This all makes for informality and if we plant a little for continuous bloom, a variety of color.

## Irrigation costs not recovered on low rates

LETHBRIDGE, Alta.—Dr. Andrew Stewart, president of the University of Alberta, told agriculturists here recently that contracts with water users are the controlling factor in the continuation of irrigation projects. Normally when there is investment in a new project, returns from the project could be expected to cover its cost, plus the prevailing interest rate, Dr. Stewart said.

"This is not the case for irrigation," he continued. "We should know what the total cost will be, what we will recover from users and the amount of the subsidy required."

Contracts with water users on payments for irrigation services should be set at a figure which will ensure continuation of the project.

If the contract rate is too low, the right acquired will develop value. Land prices will climb and the farmer will be able to dispose of his property at a profit, he said. On the other hand, if the rate is too high the farmer's operation may be uneconomical and adjustments and changes would have to be made.

The size of farm units in irrigated areas depends on factors such as soil fertility. The tendency is to have the units too small, he said. He suggested a reason for this may be that too much emphasis has been placed on output per acre.

Dr. Stewart said emphasis should be placed on what should be grown, but on what can reasonably be expected to be done. He added that only if production increased to meet an increased demand could the farmers obtain a reasonable return and thus maintain a satisfactory contract.

## Saskatchewan municipal system booklet

REGINA—A 104 page Golden Jubilee edition of "The Municipal System of Saskatchewan" has recently been published by the provincial Department of Municipal Affairs.

Prepared and written by George F. Dawson, administrative officer with the department, the booklet traces the history of municipal government from 1875 to the present day. It is well illustrated with photographs, charts and maps. The booklet is available without charge, to interested persons and groups, upon request to the Department of Municipal Affairs, Legislative Building, Regina.

## Manitoba Fruit Fair August 24

Manitoba's Provincial Fruit Fair will be held this year August 24 and 25, in Winnipeg in the Civic Caledonian rink, Sherbrook street.

This show will be held in conjunction with the Provincial Horty Show and the shows of the Winnipeg Horticultural Society, the Winnipeg Gladious Society and the Winnipeg African Violet Society.

Entries in the Fruit Show are open to residents anywhere in the province. Prize lists will be available at a later date and will contain information on the competitive classes of apples, crab apples, pears, raspberries and strawberries and on the educational displays to be staged.

Further information may be obtained from E. J. Weir, Manitoba department of Agriculture.

## Shortage good seed in parts of Alberta

There is a shortage of good seed in northern and west-central Alberta, reports Arthur M. Wilson, field crops commissioner, Alberta Department of Agriculture. Many farmers will be forced to buy the seed they need. If you buy registered or certified seed you can be sure of its quality. If, however, you buy commercial seed or seed from a neighbor ask to see the control sample certificate which gives the germination and weed seeds.

Don't plant weed seeds. Weed seeds not common to an area can easily be introduced in years when seed has to be moved from more distant points. The spread of Tartary Buckwheat, Wild Mustard, Tansy and many of the other noxious weeds can be largely caused by farmers planting uncleaned grain. "What appears to be low priced seed at the time of purchase may be the most expensive seed the farmer ever planted," says Mr. Wilson.

Seed, cleaning plants now in many municipal districts have graded seed for sale at reasonable prices. Seed graded under the Seeds Act of Canada may be ordered through the local country elevator agents or bought direct from a seed cleaning plant. Your district agriculturalist can tell you where you can buy seed. Graded seed is more than a good investment; it is a necessity.

## Residence fires account for 400 deaths annually

Residential fires account for the deaths of more than 400 Canadians each year—half of them children under 15 years of age—according to the All Canada Insurance Federation.

Stressing the importance of fire prevention in the home, officials of the federation, which represents more than 200 fire, automobile and casualty insurance companies in Canada, advised a thorough check-up of potential fire hazards as part of every spring cleaning program.

All Canada officials recommend the following precautions:

1. Before storing winter clothing for summer, remove matches from pockets.
2. Clear old newspapers, magazines and inflammable materials from attics, basements, garages and spare rooms.
3. Painting and cleaning materials are hazardous; store inflammable liquids in plainly marked safety cans, and destroy old clothing soaked with paint, furniture polish or wax.
4. Clean old leaves and rubbish from eaves and behind shrubbery.
5. When burning leaves, rubbish or grass, watch carefully for flying sparks.
6. Have electrical wiring and equipment examined by a qualified electrician for wear or damage which might have occurred during winter.

## HOUSING BOOM

If the present rate of house building is maintained in Canada, says The Financial Post, Calgary would double its size in six years, Edmonton in eight and Toronto in 12 years.

The reason that a hippopotamus spends so much time in water is to rest his weary legs. It's as heavy that he can't stand on dry land without getting exhausted.

## Patterns Easy to make!

by Alice Brooks

Build your own wooden lawn or patio chairs—easy to do—saves many dollars besides!

Woodcraft Pattern 7385: Simple directions for making lawn, porch or patio chairs. Actual-size paper pattern pieces included, with easy-to-follow number guide.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to: Department P.P.L., Household Arts Department, 60 Front Street W., Toronto. Be sure to write plainly your Name, Address and "Pattern Number."

WONDERFUL is the word—for our NEW Alice Brooks Needlecraft Catalogue for 1955. Exciting, enchanting—our new designs are all that—and even more! Send 5 cents for your copy of this terrific catalogue—NOW! You'll want to order every wonderful design in it!

## Kitchen Meditations By JANE DALE

## SONG FOR ALL CANADIANS

Come all men of the soil, the fisheries and mines; Of water, and the air; the towns and cities too; Stand firm beneath our flag across this wide domain. To our God, our country and ourselves be true! Stand firm Canadians! Hold fast to liberty! Move on; look up; attain our goal.

With strength in unity! Come 'men of all lands; all creeds; No matter what our birth, our high or lowly caste; Stand firm for Right; a precious heritage Bequeathed to Canadians from our glorious past. Stand firm Canadians! (written when Canada entered the war—1939-1945)

## SMILE OF THE WEEK

Officer (to man pacing the sidewalk at 2 a.m.): "What are you doing here?"

Man: "I forgot my key, officer, and I'm waiting for my children to come home and let me in."

## In better position to meet rust epidemic this year

Although it is much too early for scientists to tell us anything about possible rust infection in Western Canada during 1955, we are now able to get a glimpse of the present situation in Texas, which is the source of any epidemic that might ultimately find its way to Western Canada.

A report from Texas, suggests that leaf rust of wheat has been prevalent throughout the state in varying degrees all winter and could develop into a severe epidemic there.

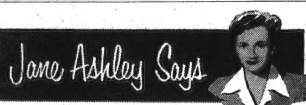

Stem rust of wheat was found in the fall from the Panhandle to the Gulf and early centres were identified as 56 and race 15-B. So far as Western Canada is concerned, race 56 has been unimportant since the introduction of Thatcher and race 15-B will now, we hope, be fairly well taken care of in the normal rust area through the distribution of Selkirk wheat. But there could be other races.

Rust, if it comes, will build up from the extreme south, gradually working its way north and

west to our Canadian Plains as wheat crops grow and develop. As usual, much will depend upon the weather and related factors. Last year, for instance, there was a drought in April over much of the wheat-growing area in the U.S.A. and for a time it looked as if there would be no rust.

Then came the heavy rains in the spring which changed the situation and caused the build-up south of the border. This was followed later by the far reaching spore shower early in June which affected Western Canada.

We may or may not have a rust epidemic this year, but of one thing we are sure; we are in a far better position to meet it than we were in 1954. (Seattle Grain Co.)

Jane Ashley Says "Try my favourite recipe for the month"

## CUSTARD BLANC MANGE

- 1/2 cup granulated sugar
- 5 tablespoons BENSON'S or CANADA Corn Starch
- 1/4 teaspoon salt
- 4 cups milk
- 2 eggs, well-beaten
- 1 1/2 teaspoons vanilla

MIX sugar, BENSON'S or CANADA Corn Starch and salt in top of double boiler.

PLACE over boiling water and cook, stirring constantly, until mixture thickens. COVER and continue cooking 10 minutes longer; stir occasionally.

REMOVE from heat; pour gradually over two well-beaten eggs, stirring constantly.

RETURN to double boiler and cook two minutes longer; stir constantly.

REMOVE from heat; add vanilla; cool. POUR into dessert dishes; chill before serving. YIELD: 6 to 8 servings.

NOTE: Use 6 tablespoons BENSON'S or CANADA Corn Starch for molded Custard Blanc Mange.

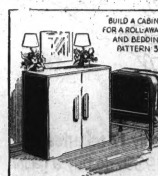

For free folder of other delicious recipes, write to: Jane Ashley, Home Service Department, THE CANADA STARCH COMPANY LIMITED, P.O. Box 129, Montreal, P.Q.

## Home Workshop

HOUSE FOR MARTINS OR BIRDHOUSE. This apartment house for purple martins is the right size to make a backyard attraction. Martins like to make their nests near a dwelling. It must 10 to 12 feet off the ground or it will not be used. This mansion complete with chimney has no framing so make it of 1/4-inch glued-up stock. Use any width of scrap to be found around the shop. The pattern gives tracing diagrams for the shaped parts and large drawings showing just how to cut out the pieces and the steps in assembling. This pattern is included in the Bird House Packet which will be postpaid for \$1.50. If only the martin house is ordered send only 35c.

BUILD A CABINET FOR A DOLLHOUSE BED AND SEWING MACHINE. Besides the illustrated directions for making the cabinet in the sketch above, today's pattern shows how to modernize various outmoded beds. Remember these of the last Century with head pieces as high as a tall man? With foot to match? The pattern sketches show a simple process to bring such pieces up to date. And what has become of all these fancy brass beds? If you have either of these old styles you will want this pattern. With a few minutes use of the hackaw these brass beds are trimmed down to Hollywood lines all ready for tailored slipcovers and spreads. How to measure materials for ruffled slipcovers and to make spreads with corded seams is shown with large sketches on pattern 313. Copy of this pattern is 35c.

Address order to: Department P.P.L., Home Workshop Patterns Service, 4435 West Fifth Avenue, Vancouver, B.C.

## OUR COMPLETE 'SHORT STORY'

## A LETTER FOR MR. SMITH

—By ADDISON H. HALLOCK

BILL lay in bed watching the miracle of a new day being born. Tomorrow, he thought, will be Anne's birthday... and he would have nothing to give her. He turned away from the window and looked at his wife. How young she looked! And she would be 40 tomorrow. Unbelievable!

Anne opened her eyes and smiled. Bill kissed her. "Sweet," she said.

"Looks like we're going to have a nice day," Bill said.

"Mmm," Anne murmured. "I'm glad. When you didn't have to go to the office."

"Me too," said Bill. "I'd just like to lie here all day and look at you."

"Sweet," Anne said again. She turned to face Bill. "Oh, dear," she sighed. "I just remembered. Tomorrow's..."

"Yes, I know... your birthday. And I haven't one darn thing to..."

"Look, Bill," Anne interrupted hastily. "Let's forget this one. Forget your birthday? Have I ever?"

"No, honey... but when a girl is well, fourth birthdays should be skipped."

Anne giggled. "Oh, Bill... that's just because you love me. I look like an old hag, and you know it."

The alarm rang on in them and Bill got up to shut it off.

Five years ago Bill had gone berserk. Wanting his wife to have the nice things other girls had, he had gone on a spending spree. He had surprised Anne with a new radio, a fur coat. He had given her all sorts of extra money to spend on clothes. When asked where all this sudden wealth was coming from, Bill had said, "Don't you worry. It's a secret. Sometime I'll tell you about it."

"All these things are lovely, Bill," Anne had said, "and you know I appreciate them... but..."

## PILES that Itch and Burn

If you suffer from hemorrhoids, itching and burning pain of piles you can be relieved.

Just get a package of Hem-Rid, a new, safe, treatment... you will be pleased with the results. Only \$1.50 for the big 50 tablet package... or 50c for the small 10 tablet package. Write for your money back. Refund agreement by all drug stores.

## Fashions

Cut to fit!

4523 14½-24½

by Anne Adams

Half-sister! Look so smart in this bright, breezy style. It's new-style — no side opening! Just unbutton shoulders — slip it on in 1-2 quick! Make new look in a jiffy in tubular cottons. Cut to fit the short, fuller figure — no alteration problems with this pattern!

Pattern 4523: Half Sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ takes 4½ yards 35-inch.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions. Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to:

Department P.R.L., Anne Adams Pattern Dept., 60 Front Street W., Toronto.

shouldn't we be saving something? "Listen, honey," Bill had answered gruffly. "You deserve a break, and at last you're getting one. I love giving you things, isn't that enough?"

Bill's lavish spending had continued for more than a year. Then, one day, Anne was mending the coat of one of Bill's suits, when an overdue notice from a local loan company had fallen from a pocket. When Bill came home, she showed him the notice. At first he flatly denied any knowledge of it. But Anne pointed out that his name was on it and kept asking questions in a frightened voice until Bill finally exploded. "Right, all right," he shouted. "It's mine. Where did you think the money was coming from, anyway?"

Anne stood transfixed, watching Bill get into his hat and coat. She said nothing, felt nothing.

"Just in case you're interested, Mrs. Smith," Bill said icily. "I'm in debt... more than five thousand dollars in debt!" The door slammed as Bill went out, leaving Anne standing there.

This had been the closest Bill and Anne had ever come to a separation. Sometime after midnight, Anne had heard the back door open softly. Bill had knelt by the bed and held her hand, asking her forgiveness. "I thought I cost hurt anyone I love so much," he had confessed everything.

Anne had planned the sacrifice they would make to repay the money over the years, until streaks in the sky heralded a new day. Anne had been told to borrow again. "If we get in a jam," he had said, "I'll tell you. From now on we'll share our troubles. I won't ask for our pleasures... all of them."

It had been tough going. They had been dunned mercilessly. Many of their acquaintances had dropped them. Bill had lost his job, when Anne expressed her faith in him, he took another one in the same town although the salary was lower. They had scrimped and saved. But Bill had kept his promise... he had never borrowed again.

Bill was remembering all this as he walked home from work the next evening. He was remembering how good Anne had been through it all. "It's a wonder she didn't kick me out," he thought. "I must have been out of my mind."

Climbing the hill slowly, he became gloomier and gloomier. "Anne's birthday," he growled. "And not a thing. Always before I've had at least a buck in my pocket. He could see the lights shining through the living room windows of the little house that had rented. Those loan sharks! If I had had to pay out all that dough just at this particular time..."

Anne was waiting for Bill in the hallway when he opened the front door. Anne, looking sweet in a dress six years old. Anne, smiling. Anne, rushing into his arms.

"Honey," Bill said. "Happy Birthday. Don't say it! Don't you remember? We're skipping this one."

Bill held her away from him a moment. "Gee, you look wonderful! You're just what I need right now!" Then he drew her to him again, and kissed her.

Anne helped Bill out of his coat, took his hat. "Oh, I almost forgot," she said, going to the closet, "there's a letter!"

Bill looked down and picked up a letter lying on the little table in the hall. He glanced at the return address. "Won't they ever stop dunning us?" he asked in a discouraged voice.

"Oh, let the letter go until after dinner," Anne said.

"Business before pleasure!" Bill ripped open the envelope and quickly drew out the large white sheet. "Dear Mr. Smith," he began to read sarcastically. "This is to inform you that, in accordance with our records..." Bill paused a moment. Then he began to read again, his expression changing.

"...the money you borrowed from us has been repaid in full, and your cancelled note is attached hereto. Due to an error on our part, we find that you have been overcharged on this account, and a check, drawn in your name, in the amount of \$107.72 is here in our office. If you will call at our earliest convenience, we will..."

The letter slipped from Bill's fingers to the floor.

"Honey," Anne said. "Oh, Honey! Bill, holding Anne close, was glad that she couldn't see the dampness around his eyes.

"Our last debt," Anne murmured against Bill's chest. "You've paid our last debt... oh, Bill!" Bill kissed the tip of Anne's left ear. "Happy Birthday, Sweetheart," he said.

Today is yesterday's pupil.

POLIO VACCINE: With cold storage space at a premium, this vaccine is placed in a meat locker in Tucson, Arizona.

## 100 Communities plan staging Jubilee pageant

REGINA. — The Golden Jubilee pageant, "Saskatchewan — The Fifth Year," will be seen in at least 100 communities this year, to a combined audience that could total over 10,000.

More than 80 communities already have obtained the special kit of pageant material prepared by the Saskatchewan Golden Jubilee Committee. The kit contains instructions for stage direction and stage settings, a historical narrative and parts for mixed choir numbers with piano accompaniment. Although not included in the general package, music for band accompaniment is available on request.

In the narrative there is a place to include each community's own local history. This makes it possible to work in the pageant with the history of early days being written in most of the cities, towns and villages that are preparing Jubilee celebrations.

Here is the latest list of communities planning to stage the Jubilee pageant:

Nokomis, Rosetown, Wadena, Humboldt, Watson, Kerrobert, Manikota, Saskatoon, Assiniboia, Prince Albert, Gravelbourg, Moose Jaw, Beechy, Talmage, Regina, Unity, Wood Mountain, Churchbridge, Tisdale, Wainwright, Maymont, Melfort, Abernethy, Milden, Lloydminster, Penzance, Tantalus, Cabri, Wood Mountain, Elrose, Glazey, Meadow Lake, Shaunavon, Tisdale, Kinistino, Blaine Lake, Shell Lake, Mistatim, Torquay, Seneca, Richard, Preseville, Aylsham, Comstock, Arcola, Carlyle, Val Marie, Cadillac, Perdue, Tate, Macklin, Dubuc, Lockwood, Gravelbourg, Abernethy, Leader, Radville, Ingersoll, Huxley, Cut Knife, Hearn, Nipawin, Landis, Ituna, Dinmore, Atwater, Rabbit Lake, Moosomin, Spy Hill, Whitewood, and Quesnel.

## RUDE AWAKENING

POWELL RIVER, B.C. — Pat Burns was slinking a power saw into a Douglas fir near where he felt a movement at his feet — and looked down into a hollow under a root to meet the stare of a hissing female near rudely awakened by the loggers.

When the bear moved out to attack, Sharp killed it with a blow on the head.

## LONG, LONG TRAIL

PENTICTON, B.C. — A watch which turned up on an Okanagan lake beach here last August has been returned to Cpl. Harry Nordahl at Arlington, Virginia, who lost it aboard a troopship in the Atlantic in 1946. How it got to British Columbia is a mystery, but the owner was traced through U.S. army records at Washington.

## SMILE OF THE WEEK

An indignant Scotman sent a letter to the editor of a news paper. "If you don't stop writing about Scotchmen being so stingy," penned the Scot, "I'll stop borrowing your paper."

## THE TILLERS

WHAT'S NEW? TILLERS? EVERY TIME I CAN'T FIND HIM! HE WENT INTO REPAIR SOME EQUIPMENT FOR A SUMMER!

I WONDER WHAT EQUIPMENT HE'S REPAIRING?

—By Les Carroll

## Health region sets dates and places for Sask. immunization against polio

Dr. M. K. Dehnal, medical health officer of the Regina rural health region, has announced dates and places where children born in 1949 and 1950 will be immunized against polio with the newly developed Salk vaccine.

The vaccine will be administered in three doses he said. There will be an interval of one month between the first two doses, followed by a booster dose later in the fall.

Any child who misses one of the doses will be excluded from further vaccination in this series.

Dr. Dehnal said the vaccine will be given by public health nurses of the region.

Limited supply

"Only a limited supply was made available to Saskatchewan this year and therefore only children born in 1949 and 1950 will benefit from the service at present," he said. "The vaccine is offered to eligible children without charge. It will not be given to any children suffering from an acute illness at the time of the vaccination nor to a child who has a previous history of asthma or eczema."

He stressed that parents or legal guardians must bring eligible children to the vaccination clinics in person so that the necessary consent forms may be signed.

The place of clinics, areas served and dates follow. The dates in May are for the first dose and the dates in June for the second.

Balgownie and RM 153; at Balgownie school; May 4 and June 8. Penne and RM 160; at Penne town hall; May 2 and June 6.

Edenwold and RM 158; at Edenwold hall; May 6 and June 10. Regina and RMs 158 and 159; in Regina provincial health building; May 4 and June 7.

Broadview and RM of Elcapo west of Oakshella; Broadview memorial hall; May 6 and June 10.

1955 Forestry tour opens May 2 northern Sask.

The annual conservation tour of forested areas in Saskatchewan opens on Tuesday, May 2nd, at Medstead in the Meadow Lake Forest district. Following this schedule, a large number of communities in the Prince Albert and Hudson Bay districts will be visited.

Conducted by the Canadian Forestry Association, in co-operation with the Saskatchewan department of Natural Resources, the tour has as its objective assuring the continued interest and assistance of the public in the prevention of forest fires, and the conservation of our renewable resources of soil, forest, water and wildlife.

The deepest limestone mine in the world is situated in Ohio.

## PATENTS

AN OFFER TO INVENTOR. List of inventions and full information. Registered Patent Attorneys, 275 Bank Street, Ottawa, Canada.

## YOU CAN DEPEND ON

When kidneys fail to remove waste and water, blood becomes toxic. This causes a host of ailments. Get DODDS' KIDNEY PILLS. They help kidneys to feel better—sleep better—eat better—live longer. Depend on DODDS.

## Now Many Wear FALSE TEETH

Est. talk, laugh or shew without fear of insecure false teeth dropping, slipping or wobbling. PATENTED holds plates firmer and more comfortably. 75¢ per pair. No gum, no messy paste or feeling. Don't lose taste, 27¢ alkaline (non-acid). Checks "plate color" (denture teeth). Get PATENTED as any drug counter.

### Local News

Alberta is celebrating its 50th birthday this year and the Irma W.I. is going to make a record book of Irma's early beginnings. Anyone having any information please let members of the W.I. know. We would appreciate pictures and early history of town and surrounding district. We would like to have any interesting incidents that would add a bit of spice to our work.

Editor's Note:—We have always understood that Mr. John Watson was the man who broke the first sod in the Irma district and that Mr. G. W. Hardy hauled the first load of wheat to an Irma elevator. Can anyone verify these and other facts for the W.I. ladies in the interesting work which they are planning?

Further donations to the Irma United Church Memorial Fund in memory of Ivan Currie from Mrs. M. G. Kirkman; Mrs. C. McLean; Mr. and Mrs. Stanley Reeds. To the WMS in memory of Ivan Currie from Mr. and Mrs. A. Fischer.

Mrs. M. Enger is leaving this week to attend Dominion Council W.A. at Toronto from May 16 to 19 as delegate from Alberta Conference W.A.

The infant son of Mr. and Mrs. M. Creasy and the infant daughters of Mr. and Mrs. R. L. Currie and Mr. and Mrs. R. L. Currie were baptized in the Irma United Church on Mother's Day.

Attendance at the Mother's Day Sunday School session was 129.

Mrs. H. Larson spent a week in the city visiting friends and relatives.

We are glad to know that Mr. I. H. Lewis is now well enough to be home from hospital. Mr. and Mrs. Lewis have now returned to their home in Irma.

The Tuberculosis X-ray mobile clinic will be in Irma again sometime in July. Watch for further particulars.

Irma folk will be interested to know that the general quota to at the elevators has been raised on bushel per specified acre. To be effective on Friday, May 13. This brings the general quota to 4 bus. per specified acre.

Be sure and hear the Camrose Lutheran Choir in the School Auditorium on Sunday afternoon, May 15.

Arnold Enger and Billy Mason are leaving Irma on Saturday of this week for Grand Prairie for work on survey crew for water conservation, during the summer months.

A recent visitor at the home of her sister, Mrs. R. A. McFarland, was Mrs. Fred Phillips of Fouce Coupe, B.C.

Mr. F. Drewicki was an Edmonton visitor this week. Mrs. Drewicki who has been in the city with her mother who is ill, returned to Irma with him.

Mrs. A. Miles and Mrs. F. Bronson have been recent visitors in the city.

Mr. and Mrs. Phillip Lee and daughter of Edmonton are visiting at the Ervin Prosser home.

Mr. H. Barber has purchased a lot which was part of the Mason property. Rudy Mikkelsen is busy bulldozing for the cement work and Mr. Barber is making preparations to build immediately on his newly acquired land.

Mrs. Helen Whidden has purchased the home formerly owned by Mr. and Mrs. I. S. Reeds.

The garage being erected by Mr. Gage Pendleton on the site of the one lost by fire last fall, is well underway and will be a fine looking building when completed.

The W.S. ladies have been busy quilting for Korean relief before the garden work, etc. begins.

Visitors to the city last week were Mrs. A. Khudson and Mrs. C. Fyle.

On May 3, the Irma Sub Local ATA met in the school lunch room. Fifteen teachers were present. May 28 was the date set for the game meet. Promotion policies was the topic of discussion for this meeting. A lovely lunch was served by Mrs. Darling and Mrs. Glasgow. The next meeting will be held in Irma on May 31.

The Battle River W.I. are having a sale of home cooking in the Co-op store on Saturday, May 21.

### PLAIN TALK

from—  
**DR. F. MACNEILL SMITH**  
Liberal Candidate

There are 285 members in House of Commons, 48 of whom represent the three Prairie Provinces. Of that 48, 16 are Liberals, 6 are Conservatives, and the balance from the two so-called "splinter parties," to quote from an editorial in "The Farm and Ranch Review."

It is an elementary political fact that policies are decided in party caucus, and not on the floor of the House. After they have been agreed upon, they are presented in Parliament to inform the country of them. Speeches are made to influence the folks back home, not the members of Parliament. Government members have considerable influence in the formation of policies concerning the interests of their own constituencies. Members of an opposition party which can hope to eventually form a government, have considerable potential value to their constituents. Members of a splinter group, lacking the numerical strength to ever form a government and representing only a few of the ten provinces, have none. They are merely paid spectators; their speeches may read well to the folks at home, but have not one iota of effect on policy formation. Canada will be under a Liberal government for at least the next two years. The moral is obvious.

(Inserted by the Battle River-Camrose Federal Liberal Assoc.)

### Do you need a NEW TRUCK?

A necessity on almost any farm, a good sturdy truck saves you time, work and money in a hundred ways.

If you're short of ready cash for such a profit-building purchase, F.I.L. may be your answer. A B of M Farm Improvement Loan can put a new or used truck to work for you on your farm very quickly. Why not talk it over with the manager of your nearest B of M branch this week?

If your proposition is sound, you can get a B of M Farm Improvement Loan for any type of equipment you need on your farm.
